Women's Club of Greater Lakeway

January 2022

PRESIDENT'S MESSAGE

Merriam-Webster choose **Vaccine** as the 2021 word of the year followed by Insurrection, Infrastructure, Pandemic, and Nomad. I pondered the word Nomad but further reading brought clarity to the concept. Nomad refers to the movie, *Nomadland*, a "plainspoken meditation on solitude, grief and grit." These selected words of the year truly provide the backdrop of our shared experiences in 2021.

As we planned our organization's program year last June, we did not know how we would look, interact, or even if we could gather in the coming months. However, I remembered the words of Nelson Mandela…**it always seems impossible until it is done.**

We cannot escape the past 22 months. However, we can embrace the joy that personally and collectively we will usher in a New Year. Eleanor Roosevelt said …***with each new day comes new strength and new thoughts.***

Bring on 2022! Together the WCGL will continue to thrive with renewed and new memberships, re-energized SIGs, and a robust monthly speaker program. Join us as we celebrate the coming days and weeks of 2022.

With joy and gratitude for each of you.

Sheila Niles, President

1st VICE PRESIDENT

Dr. Ginny Catania, UT Professor and Glaciologist, will kick off the New Year as the featured speaker at our General Meeting on Monday, January 24th. Ginny is a **Polar Scientist and Explorer** who has led expeditions to Greenland, Antarctica, and Alaska for months at a time camping out on polar ice sheets, working in challenging conditions to monitor ice sheet motion, and deploying instruments that relay information to satellites, with the goal of learning more about our environment.

For many of us in Austin, February's weather in 2021 left us miserable. A week of freezing temperatures kept roads dangerously icy, set the stage for a historic snowfall, and strained the state's power grid enough to trigger widespread electric and water outages. Temperatures didn't get above freezing for a record six consecutive days. Yet February 2021 turned out to be only the city's eighth-coldest February.

Austin's coldest temperature on record was -2 degrees in January 31, 1949. Compare this to the coldest temperature ever recorded in the Northern Hemisphere which was **-93.3 degrees recorded in Greenland** on December 22, 1991.

You won't want to miss this opportunity to *travel* with Ginny to Greenland and to other Polar regions, to hear her intriguing stories, and to learn more about the fascinating world we live in.

Sara Scarberry, 1st Vice President

2ND VICE PRESIDENT

Shorter winter days and early evenings bring plenty of time to spend indoors enjoying hobbies or learning a new craft. Do you have need of a special scarf that needs to be knitted or crocheted but need help getting started on your project? How about a recommendation for the latest best seller which will give many hours of reading pleasure? One of our many book clubs or our Knitting and Stitchery SIG may be just the thing you need? Or would you like to learn about how to better invest your money this year and need the help of our Lakeway Investors? Perhaps a new skill such as Gardening or Decorating is for you or learning to while away the hours with friends while playing Canasta or Mahjongg? The point is we have a special interest group for all of these passions in life. If you haven't joined one yet, it's not ever too late. Take a moment to review the offered SIGs and contact the chair person for each SIG or give me a call. We are more than happy to assist you in signing up.
Contact me by phone/text at 512-796-0971 or kimber4sue@att.net.

Wishing everyone a happy and healthy New Year,
Kim Majkszak, 2nd Vice President

Written in 1937, the novel initially was not well received even by other black

writers. However, in the 1960s and '70s, appreciation of the novel by writers such as Alice Walker cemented Hurston's reputation as one of the country's finest African-American writers.
